

Golf Lakes Pickleball Club

The New FORUM Welcome

I have created a FORUM to begin open discussion on topic of interest. Anyone can post, create their own topics or add to existing topics. Simply register by your email address, birth date, a login name, and password (you wish to use). By having a registration for our group only, we can begin to post more private information (such as phone numbers, where we can post a members list). At the present time the forum is open to all (even guests). However, as we begin to have more and more members register, it will be locked out to guests.

Once you have registered and logged-in you can begin exploring the threads and posts on the forum. (Remember your password)

- One of the first things to do is update your “profile.”
 - Another is to edit your profile by adding a photo.
- You can create new categories for topics of add to the general discussions of the existing topics.

I thought this might be a fun way to keep up on news where everyone can interact. The FORUM can also be added as an app on phones the same way as the website.
