

Golf Lakes Pickleball Club

Chairman's Message

December 2019

Hi Folks,

Just a couple of lines to say that all seems to be going well within the club and we look forward to another successful season. The fall mini-ladder has one week left, thanks to Mike Henderson and the sub-committee for doing a commendable job. Larry Van Deventer has done an excellent job in refining our website and keeping a tally of league scores. If you have not done so already check out the club's website.

As you probably know we have not as yet solved the floodlighting situation. We have a scheduled meeting with the contractor late next week.

Safety of our players is of paramount importance, we have 2 instances of late whereupon first-aid had to be administered. Although neither of the instances could have been avoided by any safety principles your committee will be discussing both these situations regarding our response to such.

On behalf of the membership I wish Karon Bell and Richard Pare, speedy and continued recovery.

Phil Snape, Chairman.
